## Learning Objectives

### Hook-in:

Within Dynamics NAV there are specific Insert Codes such as Before Sales Post, After Sales Post, etc., these Insertion Codes can be used to set examinations in transaction processes (e.g. Posting).

### Break Condition:

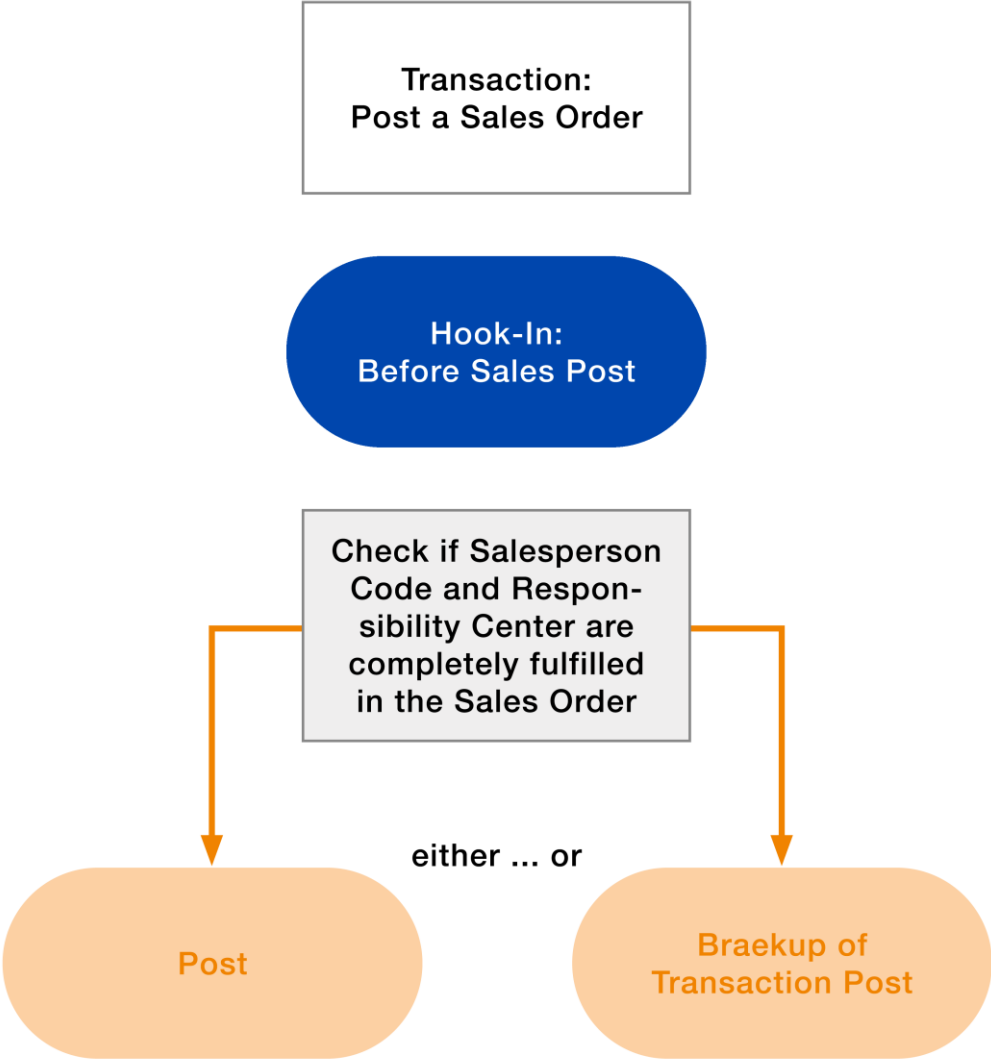

The condition when a transaction shall be stopped are defined in the Break Condition.

### Business Process „Post Sales Order“:

Specific fields which are Mandatory Fields are controlled before posting a sales order. If the employee tries to post, an error message will open as soon as Mandatory Fields are not completely fulfilled.
